## Academic Calendar 2012/2013

The Academic Year commences on **October 1, 2012** and finishes on **September 30, 2013**. Registration for new and continuing degree-seeking students takes place before the beginning of the academic year. **Degree-seeking students will be allowed to register for their studies only once a year, prior to the start of the Winter Semester.** Special arrangements will be made for visiting students who are scheduled to arrive halfway through the year, enabling them to register at the start of the Summer Semester. This option is not available for degree-seeking students.

Registration for individual classes is open twice per year, at the start of the relevant semester. Students will be allowed to register for classes solely through the on-line Student Information System (SIS) and during the period prescribed in this calendar. **Registration for classes during the prescribed period is a prerequisite for the successful completion of the class!**
