5 Homework, Midterm Exam, Final Exam

Homework

There will be three homework in total where students are supposed to solve computational exercises. Students will have one week to solve the exercise – exact due date will be specified in the assignments. Group discussion in solving the assignment is encouraged, however, each student is supposed to write their own answers in their own words. **Note that not only numerical results (40%), but also verbal comments (40%) and appearance (20%)¹ are parts of evaluation.** The homework are subject to late penalties – 20% for the first day, 50% for the second day. Assignments are not accepted after the second day.

Midterm Exam

Midterm Exam will be composed from topics covered up to the November 8, 2024 included.

Final Exam

Final Exam will be composed from all topics covered during semester. The topics from Course Content section not covered during classes will **not be included** in the Final Exam.
